# Middle Age R'lyeh: Fallen Star

## R'lyeh one-page command brief

Middle Age R'lyeh converts mind control, aquatic slave troops, and powerful Astral magic into expansion, research, and strategic pressure. The pinned roster resolves 8 commander identities and 13 troop identities across ordinary, regional, coastal, and site-linked recruitment, plus 0 active nation-restricted spell records. Its chief planning risks are slave morale, magic leadership, land access, and friendly-fire risk.

The safe operating plan is to keep recruitment geography visible, buy commanders for named jobs, label every random mage, connect research to casters already owned, and preserve a replacement route before committing elite or capital-limited troops. Exact expansion parties, scripts, formations, spell targets, freespawn composition, transformation results, and combat outcomes remain open unless a source below states them directly.

## R'lyeh evidence and ruleset

This dossier covers unmodded Middle Age R'lyeh on the Dominions 6.37 executable baseline. Player-facing rules are governed by the revision-2 official manual and official patches through 9 September 2026. Nation ID 89, roster memberships, unit fields, random masks, sites, spell restrictions, item links, and hero assignments are cross-checked against the pinned Inspector 6.35 commit `cfac4311bc0b58053b8dead7bffbc036ba9bd5dc`.

The structured snapshot is not relabelled as live 6.37 data. The 6.37 patch's unspecified statistic corrections are not assigned to any R'lyeh object without a named official record. No runtime test, replay, save, or new test asset was used.

## R'lyeh conversion chain

verified recruitment and national assets

-> provinces, forts, laboratories, temples, scouts, and replacement routes

-> labelled fixed and random path access

-> research, searching, forging, rituals, and battlefield support

-> surviving armies, sieges, claims, raids, and strategic depth

## R'lyeh recruitment geography

| Recruitment layer   | Commanders | Troops | Evidence boundary                                                                       |
|---------------------|------------|--------|-----------------------------------------------------------------------------------------|
| Ordinary forts      | 7          | 13     | Direct pinned membership rows                                                           |
| Regional or coastal | 0          | 0      | Non-fort and coast membership rows; exact terrain availability remains source-dependent |
| Site-linked         | 1          | 0      | Explicit site recruit fields; capital grouping follows the nation-site association      |

Empty ordinary rows do not prove that a nation lacks forces. Freespawn, reanimation, events, summoning, dominion effects, and special recruitment remain separate mechanisms.

## R'lyeh commander roster

| ID   | Commander      | Fixed and random magic                                             | Leadership |
|------|----------------|--------------------------------------------------------------------|------------|
| 432  | Scout          | none                                                               | 0          |
| 444  | Traitor Prince | none                                                               | 100        |
| 1527 | Slave Priest   | H1                                                                 | 10         |
| 1518 | Slave Mage     | W2 S1; random: 100% x1 mask 11776 link 1                           | 10         |
| 445  | Illithid Lord  | none                                                               | 50         |
| 443  | Star Child     | S1                                                                 | 0          |
| 333  | Starspawn      | W1 S2 H2; random: 100% x1 mask 19968 link 1                        | 10         |
| 332  | Starspawn      | W1 S3; random: 100% x2 mask 19968 link 1; 10% x1 mask 19968 link 1 | 10         |

## R'lyeh troop roster

| ID   | Unit             | HP | Protection | Morale | Traits                  |
|------|------------------|----|------------|--------|-------------------------|
| 1517 | Slave Trooper    | 15 | 1          | 7      | aquatic                 |
| 1526 | Slave Guardian   | 15 | 1          | 7      | aquatic                 |
| 1515 | Slave Trooper    | 10 | 1          | 7      | amphibious              |
| 1524 | Slave Guardian   | 10 | 1          | 7      | amphibious              |
| 335  | Slave Trooper    | 12 | 2          | 7      | amphibious              |
| 1619 | Slave Guardian   | 12 | 2          | 7      | amphibious              |
| 336  | Slave Guardian   | 12 | 2          | 7      | amphibious              |
| 337  | Lobo Guard       | 13 | 2          | 50     | magic being, amphibious |
| 424  | Meteorite Guard  | 14 | 2          | 12     | amphibious              |
| 425  | Shambler Thrall  | 24 | 7          | 50     | magic being, amphibious |
| 243  | Crab Hybrid      | 25 | 14         | 14     | aquatic                 |
| 331  | Illithid         | 28 | 5          | 10     | magic being, amphibious |
| 407  | Illithid Soldier | 28 | 5          | 10     | magic being, amphibious |

## R'lyeh mage and priest portfolio

| ID   | Commander    | Fixed and random magic                                             | Leadership |
|------|--------------|--------------------------------------------------------------------|------------|
| 1527 | Slave Priest | H1                                                                 | 10         |
| 1518 | Slave Mage   | W2 S1; random: 100% x1 mask 11776 link 1                           | 10         |
| 443  | Star Child   | S1                                                                 | 0          |
| 333  | Starspawn    | W1 S2 H2; random: 100% x1 mask 19968 link 1                        | 10         |
| 332  | Starspawn    | W1 S3; random: 100% x2 mask 19968 link 1; 10% x1 mask 19968 link 1 | 10         |

The highest fixed recruitable paths resolved in these rows are Water 2, Astral 3, Holy 2. Random masks are printed as raw pinned fields because mask interpretation, linked-roll behaviour, and live

display should not be guessed. A rare result is an opportunity after recruitment, never a guaranteed research or ritual schedule.

## R'lyeh capital and national sites

| ID | Site            | Monthly fields | Recruits recorded               |
|----|-----------------|----------------|---------------------------------|
| 17 | The Sunken City | W2, S3         | none in explicit recruit fields |
| 45 | The Void Gate   | no gem field   | Starspawn                       |

Site rows prove only their explicit fields. Hidden effects, event behaviour, recruitment timing, ownership transitions, and live interface grouping remain unresolved.

## R'lyeh national spell map

No active nation-restricted spell row was found for this nation in the pinned snapshot. Absence here is a metadata boundary, not proof that no shared or special spell exists.

Research does not create the caster, gems, slaves, corpses, laboratory, target, or free mage-turn. Every national spell remains a gated project: research, access, treasury, legal target, and opportunity cost must all be present.

## R'lyeh national item boundary

| ID  | Item                     | Construction | Paths | Link       |
|-----|--------------------------|--------------|-------|------------|
| 134 | Anemone Mace             | 3            | W1    | restricted |
| 137 | Jellyberd                | 7            | S1 F1 | restricted |
| 248 | Armor of Meteoritic Iron | 5            | E1 S1 | rebate     |

Restriction and rebate fields establish metadata links, not displayed prices, rounding, stacking, or live forge availability. Those remain open unless the official manual supplies the exact result.

## R'lyeh hero boundary

| ID  | Hero record  | Magic       | Boundary                           |
|-----|--------------|-------------|------------------------------------|
| 560 | Stargazer    | W2 S5 G1 H2 | assignment only; timing unresolved |
| 660 | Aboleth      | W3 S4 G2    | assignment only; timing unresolved |
| 622 | Traitor King | W5          | assignment only; timing unresolved |

Heroes are contingent capacity. None belongs in an opening, research, or path plan that must work every game.

## R'lyeh army identities

- Sacred roster: no sacred troop identified in the reconciled recruit rows.
- Flying roster: no flying troop identified in the reconciled recruit rows.

- Aquatic or amphibious roster: Slave Trooper, Slave Guardian, Slave Trooper, Slave Guardian, Slave Trooper, Slave Guardian, Slave Guardian, Lobo Guard, Meteorite Guard, Shambler Thrall, Crab Hybrid, Illithid, Illithid Soldier.
- Core identity: mind control, aquatic slave troops, and powerful Astral magic.

These labels help assemble testable packages; they do not establish the best formation, script, bless, target, or casualty rate.

## R'lyeh opening and expansion controls

- 1 Identify whether gold, resources, recruitment points, commander points, corpses, population, slaves, or a special national mechanism limits the first queue.
- 2 Separate ordinary, regional, coastal, and site-linked recruitment before planning reinforcement.
- 3 Use mundane leadership where it preserves a valuable mage-turn.
- 4 Label random mages immediately and keep rare paths out of guaranteed schedules.
- 5 Add scouts and retreat routes before extending beyond reliable information.
- 6 Record expansion results rather than publishing an untested party size.

## R'lyeh fort and recruitment doctrine

Additional forts are valuable when they reproduce the commander or troop required by the next job. Regional and coastal recruitment must be evaluated where it exists rather than averaged into a fictional universal roster. Capital or site-linked units need a replacement ledger because their opportunity cost competes with every other capital-limited purchase.

For R'lyeh, the most likely planning failure is slave morale, magic leadership, land access, and friendly-fire risk. The remedy is a visible queue showing location, bottleneck, expected role, and replacement time.

## R'lyeh research response tree

- Fixed-path branch: begin with spells the repeatable mage roster can cast without a random, booster, hero, or Pretender.
- Random-path branch: open only after the qualifying mage is recruited and labelled.
- National-spell branch: verify the exact research level, caster, cost, target, and free mage-turn from the spell table.
- Construction branch: compare each forge turn against research, searching, ritual work, and army support; item metadata alone does not prove a discount.
- Summon or reanimation branch: account for gems, corpses, slaves, laboratory access, leadership, and unresolved arrival behaviour.

## R'lyeh magic-access ladder

The fixed-path ceiling is Water 2, Astral 3, Holy 2. Access above that line needs a named bridge: booster, empowerment, communion or chorus where legal, summoned mage, hero, Pretender, or another directly verified source. Two partial paths on different commanders cannot be combined to cast one spell.

# R'lyeh battlefield packages

## Line and support package

Use the most replaceable suitable troops as frontage, place commanders according to actual leadership, and protect mages whose turns are needed for research or rituals. Armour, morale, fatigue, size, formation width, and the opponent decide whether the line survives.

## Elite or sacred package

Use sacred or elite troops only when their recruitment location, bless, priest coverage, and replacement rate justify the commitment. Capital scarcity is a strategic cost even when the unit performs well.

## Mobility or habitat package

Flying, stealthy, sailing, aquatic, amphibious, cave, forest, or wasteland tools must be checked against legal movement, supply, retreat, and reinforcement. A trait is not permission to ignore geography.

## Mage package

Script from paths actually present on the recruited commanders. Keep gem use, fatigue, friendly fire, magic resistance, battlefield size, and enemy resistances visible; no generic script is treated as verified performance.

# R'lyeh Pretender families

| Family                     | What it can solve                                                | What it cannot conceal                                                           |
|----------------------------|------------------------------------------------------------------|----------------------------------------------------------------------------------|
| Missing-path bridge        | Opens a named booster, ritual, or battlefield threshold          | Research, gems, laboratories, and mage-turns remain required                     |
| Economy and infrastructure | Funds forts, laboratories, temples, commanders, and replacements | Gold does not create local resources, gems, corpses, slaves, or commander points |
| Sacred support             | Improves a verified sacred package                               | Recruitment limits, priest coverage, and counters remain                         |
| Awake expansion body       | Reduces pressure on the starting roster                          | Performance depends on settings, map, chassis, scales, script, and opponents     |
| Resistance package         | Covers a documented roster weakness                              | One resistance is not universal defence                                          |

# R'lyeh matchup and failure matrix

| Enemy problem        | First answer to examine                                              | Avoid                                                  |
|----------------------|----------------------------------------------------------------------|--------------------------------------------------------|
| Massed light units   | Replaceable width, area effects, morale pressure, and reserves       | Spending every scarce elite turn on basic frontage     |
| Heavy armour         | Higher damage, armour-piercing or negating magic, fatigue, and buffs | Assuming ordinary weapons solve protection unaided     |
| Accurate missiles    | Screens, protection, spacing, speed, and disruption                  | Exposing commanders or fragile elites without guards   |
| Elemental resistance | Shift damage type and use physical or fatigue pressure               | Building the complete research plan around one element |

| Enemy problem                 | First answer to examine                                         | Avoid                                                                |
|-------------------------------|-----------------------------------------------------------------|----------------------------------------------------------------------|
| Fast raiders or flyers        | Scouts, local leadership, layered defence, and mobile reserves  | Concentrating every commander in one army                            |
| Large targets                 | Concentrated attacks, debuffs, control, and size-aware counters | Treating trampling or low-damage swarms as universal                 |
| Underwater or land transition | Verified amphibious access, coastal staging, summons, or allies | Assuming a habitat transition works because a related unit can cross |

## R'lyeh monthly audit

- Which recruitment layer supplies each current army and mage role?
- What is the active bottleneck at every fort?
- Are random mages labelled and excluded from guaranteed schedules until present?
- Does each research target have a legal caster and treasury?
- Are capital, coastal, regional, freespawn, and ordinary replacements tracked separately?
- Are scouts, laboratories, temples, leadership, supply, and retreat routes keeping pace?
- Are heroes excluded from plans that must work every game?
- Have uncertain mechanics remained marked as uncertain?

## R'lyeh unresolved evidence boundary

The dossier does not claim exact expansion counts, formation performance, script outcomes, random-path display, freespawn or reanimation composition, special-dominion timing, transformation or mount resolution, summon arrival state, item-price stacking, hero timing, stealth detection, sailing routes, underwater transition, event outcomes, or battlefield casualty ranges. Nation-specific mechanics implied by names or summaries remain qualitative unless an explicit source field settles them. R-047, R-058, and every comparable engine-dependent investigation remain parked.

## R'lyeh source note

- Dominions 6 Manual, revision 2: nation summary, visible roster, recruitment markings, national rules, and spell descriptions.
- Official Dominions patch history through 6.37: current executable chronology; generic 6.37 statistic fixes are not assigned to unnamed objects.
- Dominions 6 Data Inspector commit `cfac4311bc0b58053b8dead7bffbcb036ba9bd5dc`: nation ID, membership rows, unit fields, random masks, sites, spell restrictions, item links, and hero assignments.
- Strategy sections are bounded doctrine derived from verified capacity. They are not runtime test results.

## Dossier source register

### Official

- Dominions 6 Manual, revision 2: all 37 unmodded Middle Age nation pages; national spells and rituals; research; communions, Chorus, and Grand Communion; Blood and crossbreeding; Inquisition; mounts; sailing; flying; forging; habitat transitions; and fort construction.
- Illwinter official patch history through 6.37, including the current Send Aatxe restriction, communion corrections, the 6.13 Forest of Avalon Magic correction, the 6.01 Abysia wall-defender note, Eriu's 6.01 terrain-recruit and Bean Sidhe corrections, Agartha's 6.04 Oracle-shape note, and 6.37's bounded

research, drowning, and Drake corrections. Generic statistic fixes are not assigned to unnamed nation objects.

## Structured snapshot

- Dominions 6 Data Inspector, commit `cfac4311bc0b58053b8dead7bfffbc036ba9bd5dc`, pinned to the 6.35 data update; used for mage random masks, recruitment records, capital sites, national spell restrictions, national item fields, and current object cross-checks.

## Interpretation boundary

Roster entries, path masks, costs, site income, item restrictions, and national ritual requirements are source facts. Openings, research trees, Pretender families, battlefield packages, and matchup advice are strategy. Expansion counts, random-result timing, Blood returns, crossbreeding outputs, displayed forge-cost stacking, communion and Grand Communion outcomes, hydra-field behaviour, Spell Singer outcomes, Glamour detection, special-dominion scaling and targeting, ancestor-summon behaviour, conscription output, variable summon quantities, retinue and shape behaviour, flying and storm resolution, ice-equipment scaling, Guardian Spirit behaviour, remote ritual outcomes, spell targeting, and combat outcomes remain observation questions until a versioned raw set is published.
