Early Age Caelum: Eagle Kings

Early Age Caelum one-page command brief

Early Age Caelum converts flying winged troops, strong archery, cold-forged ice equipment, mammoths, and powerful Air magic into expansion, research, and strategic pressure. The pinned roster resolves 8 commander identities and 14 troop identities across ordinary, regional, coastal, and site-linked recruitment, plus 11 active nation-restricted spell records. Its chief planning risks are temperature-dependent protection, fragile troops, storm interactions, supply, and coordinating flyers with slower forces.

The safe operating plan is to keep recruitment geography visible, buy commanders for named jobs, label every random mage, connect research to casters already owned, and preserve a replacement route before committing elite or capital-limited troops. Exact expansion parties, scripts, formations, spell targets, freespawn composition, transformation results, and combat outcomes remain open unless a source below states them directly.

Early Age Caelum evidence and ruleset

This dossier covers unmodded Early Age Caelum on the Dominions 6.37 executable baseline. Player-facing rules are governed by the revision-2 official manual and official patches through 9 September 2026. Nation ID 24, roster memberships, unit fields, random masks, sites, spell restrictions, item links, and hero assignments are cross-checked against the pinned Inspector 6.35 commit `cfac4311bc0b58053b8dead7bfffbc036ba9bd5dc`.

The structured snapshot is not relabelled as live 6.37 data. The 6.37 patch's unspecified statistic corrections are not assigned to any Caelum object without a named official record. No runtime test, replay, save, or new test asset was used.

Early Age Caelum conversion chain

verified recruitment and national assets

- > provinces, forts, laboratories, temples, scouts, and replacement routes
- > labelled fixed and random path access
- > research, searching, forging, rituals, and battlefield support
- > surviving armies, sieges, claims, raids, and strategic depth

Early Age Caelum recruitment geography

Recruitment layer	Commanders	Troops	Evidence boundary
Ordinary forts	6	10	Direct pinned membership rows
Regional or coastal	0	0	Non-fort and coast membership rows; exact terrain availability remains source-dependent
Site-linked	2	4	Explicit site recruit fields; capital grouping follows the nation-site association

Empty ordinary rows do not prove that a nation lacks forces. Freespawn, reanimation, events, summoning, dominion effects, and special recruitment remain separate mechanisms.

Early Age Caelum commander roster

ID	Commander	Fixed and random magic	Leadership
484	Caelian Scout	none	0
1288	Sastar	none	100
1284	Spire Horn Seraph	A1	10
2557	Airy Seraphine	F1 H2	50
2570	Airy Seraph	A2 W1	10
1663	Harab Seraph	A1 D1; random: 100% x1 mask 5376 link 1	10
1286	Eagle King	A4 W1 E1 H2; random: 10% x1 mask 1920 link 1	100
2560	Mairya Ahu	none	50

Early Age Caelum troop roster

ID	Unit	HP	Protection	Morale	Traits
2564	Spire Horn Militia	10	0	8	flying
2566	Spire Horn Warrior	10	0	10	flying
2565	Spire Horn Archer	9	0	10	flying
1287	Tempest Warrior	11	0	11	flying
130	Airy Light Infantry	9	0	10	flying
420	Airy Infantry	9	0	10	flying
1285	Iceclad	9	0	12	flying
1707	Raptorian Militia	11	0	9	flying
1278	Raptorian Warrior	11	0	11	flying
419	Mammoth Rider	10	0	10	flying
127	Blizzard Warrior	9	0	10	flying
1289	Airy Temple Guard	10	0	13	sacred
2558	Kavi Archer	9	0	12	sacred, flying
2559	Mairya Warrior	13	0	13	sacred, flying, stealthy

Early Age Caelum mage and priest portfolio

ID	Commander	Fixed and random magic	Leadership
1284	Spire Horn Seraph	A1	10
2557	Airy Seraphine	F1 H2	50
2570	Airy Seraph	A2 W1	10
1663	Harab Seraph	A1 D1; random: 100% x1 mask 5376 link 1	10
1286	Eagle King	A4 W1 E1 H2; random: 10% x1 mask 1920 link 1	100

The highest fixed recruitable paths resolved in these rows are Fire 1, Air 4, Water 1, Earth 1, Death 1, Holy 2. Random masks are printed as raw pinned fields because mask interpretation, linked-roll

behaviour, and live display should not be guessed. A rare result is an opportunity after recruitment, never a guaranteed research or ritual schedule.

Early Age Caelum capital and national sites

ID	Site	Monthly fields	Recruits recorded
94	Palace of the Eagle Kings	A3, W1	Eagle King, Blizzard Warrior, Airya Temple Guard
168	Spire Horn Mountain	A1	Kavi Archer
169	Ravens Vale	E1	Mairya Ahu, Mairya Warrior

Site rows prove only their explicit fields. Hidden effects, event behaviour, recruitment timing, ownership transitions, and live interface grouping remain unresolved.

Early Age Caelum national spell map

ID	Spell	School	Requirement	Cost field
461	Parting of the Soul	Thaumaturgy 6	D1 A1	0
462	Call Ahurani	Conjuration 5	S2 W1	12
463	Call Celestial Yazad	Conjuration 6	S4	40
464	Call Fravashi	Conjuration 7	S3	30
465	Call Amesha Spenta	Conjuration 8	S5	60
466	Summon Yazatas	Conjuration 5	S2	12
467	Call Daevas	Conjuration 5	D2 F1	12
468	Call Jahi	Conjuration 5	D3 F1	15
469	Call Yata	Conjuration 6	D3 F2	40
470	Call of the Drugvant	Thaumaturgy 7	D4 F1	15
471	Call Greater Daeva	Conjuration 8	D4 F2	60

Research does not create the caster, gems, slaves, corpses, laboratory, target, or free mage-turn. Every national spell remains a gated project: research, access, treasury, legal target, and opportunity cost must all be present.

Early Age Caelum national item boundary

No nation restriction or rebate link appears in the pinned item rows. This does not establish live forge pricing or exclude undocumented behaviour.

Restriction and rebate fields establish metadata links, not displayed prices, rounding, stacking, or live forge availability. Those remain open unless the official manual supplies the exact result.

Early Age Caelum hero boundary

ID	Hero record	Magic	Boundary
1674	Unwinged	H2	assignment only; timing unresolved

ID	Hero record	Magic	Boundary
2577	Ahu of the Kavi	H2	assignment only; timing unresolved

Heroes are contingent capacity. None belongs in an opening, research, or path plan that must work every game.

Early Age Caelum army identities

- Sacred roster: Airya Temple Guard, Kavi Archer, Mairya Warrior.
- Flying roster: Spire Horn Militia, Spire Horn Warrior, Spire Horn Archer, Tempest Warrior, Airya Light Infantry, Airya Infantry, Iceclad, Raptorian Militia, Raptorian Warrior, Mammoth Rider, Blizzard Warrior, Kavi Archer, Mairya Warrior.
- Aquatic or amphibious roster: no aquatic or amphibious troop identified in the reconciled recruit rows.
- Core identity: flying winged troops, strong archery, cold-forged ice equipment, mammoths, and powerful Air magic.

These labels help assemble testable packages; they do not establish the best formation, script, bless, target, or casualty rate.

Early Age Caelum opening and expansion controls

- 1 Identify whether gold, resources, recruitment points, commander points, corpses, population, slaves, or a special national mechanism limits the first queue.
- 2 Separate ordinary, regional, coastal, and site-linked recruitment before planning reinforcement.
- 3 Use mundane leadership where it preserves a valuable mage-turn.
- 4 Label random mages immediately and keep rare paths out of guaranteed schedules.
- 5 Add scouts and retreat routes before extending beyond reliable information.
- 6 Record expansion results rather than publishing an untested party size.

Early Age Caelum fort and recruitment doctrine

Additional forts are valuable when they reproduce the commander or troop required by the next job. Regional and coastal recruitment must be evaluated where it exists rather than averaged into a fictional universal roster. Capital or site-linked units need a replacement ledger because their opportunity cost competes with every other capital-limited purchase.

For Caelum, the most likely planning failure is temperature-dependent protection, fragile troops, storm interactions, supply, and coordinating flyers with slower forces. The remedy is a visible queue showing location, bottleneck, expected role, and replacement time.

Early Age Caelum research response tree

- Fixed-path branch: begin with spells the repeatable mage roster can cast without a random, booster, hero, or Pretender.
- Random-path branch: open only after the qualifying mage is recruited and labelled.
- National-spell branch: verify the exact research level, caster, cost, target, and free mage-turn from the spell table.
- Construction branch: compare each forge turn against research, searching, ritual work, and army support; item metadata alone does not prove a discount.

- Summon or reanimation branch: account for gems, corpses, slaves, laboratory access, leadership, and unresolved arrival behaviour.

Early Age Caelum magic-access ladder

The fixed-path ceiling is Fire 1, Air 4, Water 1, Earth 1, Death 1, Holy 2. Access above that line needs a named bridge: booster, empowerment, communion or chorus where legal, summoned mage, hero, Pretender, or another directly verified source. Two partial paths on different commanders cannot be combined to cast one spell.

Early Age Caelum battlefield packages

Line and support package

Use the most replaceable suitable troops as frontage, place commanders according to actual leadership, and protect mages whose turns are needed for research or rituals. Armour, morale, fatigue, size, formation width, and the opponent decide whether the line survives.

Elite or sacred package

Use sacred or elite troops only when their recruitment location, bless, priest coverage, and replacement rate justify the commitment. Capital scarcity is a strategic cost even when the unit performs well.

Mobility or habitat package

Flying, stealthy, sailing, aquatic, amphibious, cave, forest, or wasteland tools must be checked against legal movement, supply, retreat, and reinforcement. A trait is not permission to ignore geography.

Mage package

Script from paths actually present on the recruited commanders. Keep gem use, fatigue, friendly fire, magic resistance, battlefield size, and enemy resistances visible; no generic script is treated as verified performance.

Early Age Caelum Pretender families

Family	What it can solve	What it cannot conceal
Missing-path bridge	Opens a named booster, ritual, or battlefield threshold	Research, gems, laboratories, and mage-turns remain required
Economy and infrastructure	Funds forts, laboratories, temples, commanders, and replacements	Gold does not create local resources, gems, corpses, slaves, or commander points
Sacred support	Improves a verified sacred package	Recruitment limits, priest coverage, and counters remain
Awake expansion body	Reduces pressure on the starting roster	Performance depends on settings, map, chassis, scales, script, and opponents
Resistance package	Covers a documented roster weakness	One resistance is not universal defence

Early Age Caelum matchup and failure matrix

Enemy problem	First answer to examine	Avoid
Massed light units	Replaceable width, area effects, morale pressure, and reserves	Spending every scarce elite turn on basic frontage
Heavy armour	Higher damage, armour-piercing or negating magic, fatigue, and buffs	Assuming ordinary weapons solve protection unaided
Accurate missiles	Screens, protection, spacing, speed, and disruption	Exposing commanders or fragile elites without guards
Elemental resistance	Shift damage type and use physical or fatigue pressure	Building the complete research plan around one element
Fast raiders or flyers	Scouts, local leadership, layered defence, and mobile reserves	Concentrating every commander in one army
Large targets	Concentrated attacks, debuffs, control, and size-aware counters	Treating trampling or low-damage swarms as universal
Underwater or land transition	Verified amphibious access, coastal staging, summons, or allies	Assuming a habitat transition works because a related unit can cross

Early Age Caelum monthly audit

- Which recruitment layer supplies each current army and mage role?
- What is the active bottleneck at every fort?
- Are random mages labelled and excluded from guaranteed schedules until present?
- Does each research target have a legal caster and treasury?
- Are capital, coastal, regional, freespawn, and ordinary replacements tracked separately?
- Are scouts, laboratories, temples, leadership, supply, and retreat routes keeping pace?
- Are heroes excluded from plans that must work every game?
- Have uncertain mechanics remained marked as uncertain?

Early Age Caelum unresolved evidence boundary

The dossier does not claim exact expansion counts, formation performance, script outcomes, random-path display, freespawn or reanimation composition, special-dominion timing, transformation or mount resolution, summon arrival state, item-price stacking, hero timing, stealth detection, sailing routes, underwater transition, event outcomes, or battlefield casualty ranges. Nation-specific mechanics implied by names or summaries remain qualitative unless an explicit source field settles them. R-047, R-058, and every comparable engine-dependent investigation remain parked.

Early Age Caelum source note

- Dominions 6 Manual, revision 2: nation summary, visible roster, recruitment markings, national rules, and spell descriptions.
- Official Dominions patch history through 6.37: current executable chronology; generic 6.37 statistic fixes are not assigned to unnamed objects.
- Dominions 6 Data Inspector commit `cfac4311bc0b58053b8dead7bffbcb036ba9bd5dc`: nation ID, membership rows, unit fields, random masks, sites, spell restrictions, item links, and hero assignments.
- Strategy sections are bounded doctrine derived from verified capacity. They are not runtime test results.

Dossier source register

Official

- Dominions 6 Manual, revision 2: MA Caelum nation pages, national spells and rituals, flying, storms, mounts, forging, and fort construction.
- Illwinter official patch history through 6.36, including the 6.08 Call of the Drugvant assignment correction and the 6.12 Ice Protection and Ice Armor terminology split.

Structured snapshot

- Dominions 6 Data Inspector, commit cfac4311bc0b58053b8dead7bfffbc036ba9bd5dc, pinned to the 6.35 data update; used for nation identity, roster membership, random masks, capital sites, spell restrictions, item rebates, and hero records.

Interpretation boundary

Roster entries, printed costs, paths, site income, spell and ritual requirements, and pinned metadata are source facts. Openings, recruitment packages, research branches, force packages, Pretender families, and matchup responses are strategy. The Seraphine Fire random, live random displays, flying and storm resolution, ice-equipment scaling, Ice Fort protection, Guardian Spirits, Mammoths, summons, remote ritual outcomes, item-rebate prices, hero timing, and combat results remain unresolved.
