Early Age Pelagia: Pearl Kings

Early Age Pelagia one-page command brief

Early Age Pelagia converts aquatic Triton clans, amphibious mermen, sacred Pearl Kings, and Water-Astral-Nature magic into expansion, research, and strategic pressure. The pinned roster resolves 12 commander identities and 13 troop identities across ordinary, regional, coastal, and site-linked recruitment, plus 0 active nation-restricted spell records. Its chief planning risks are deep-water geography, limited land projection, commander coverage, and separating aquatic from amphibious replacement.

The safe operating plan is to keep recruitment geography visible, buy commanders for named jobs, label every random mage, connect research to casters already owned, and preserve a replacement route before committing elite or capital-limited troops. Exact expansion parties, scripts, formations, spell targets, freespawn composition, transformation results, and combat outcomes remain open unless a source below states them directly.

Early Age Pelagia evidence and ruleset

This dossier covers unmodded Early Age Pelagia on the Dominions 6.37 executable baseline. Player-facing rules are governed by the revision-2 official manual and official patches through 9 September 2026. Nation ID 40, roster memberships, unit fields, random masks, sites, spell restrictions, item links, and hero assignments are cross-checked against the pinned Inspector 6.35 commit cfac4311bc0b58053b8dead7bffbc036ba9bd5dc.

The structured snapshot is not relabelled as live 6.37 data. The 6.37 patch's unspecified statistic corrections are not assigned to any Pelagia object without a named official record. No runtime test, replay, save, or new test asset was used.

Early Age Pelagia conversion chain

verified recruitment and national assets
-> provinces, forts, laboratories, temples, scouts, and replacement routes
-> labelled fixed and random path access
-> research, searching, forging, rituals, and battlefield support
-> surviving armies, sieges, claims, raids, and strategic depth

Early Age Pelagia recruitment geography

Recruitment layer	Commanders	Troops	Evidence boundary
Ordinary forts	7	9	Direct pinned membership rows
Regional or coastal	4	3	Non-fort and coast membership rows; exact terrain availability remains source-dependent
Site-linked	2	1	Explicit site recruit fields; capital grouping follows the nation-site association

Empty ordinary rows do not prove that a nation lacks forces. Freespawn, reanimation, events, summoning, dominion effects, and special recruitment remain separate mechanisms.

Early Age Pelagia commander roster

ID	Commander	Fixed and random magic	Leadership
1050	Merman Scout	none	0
1293	Turtle Chief	none	75
2390	Pelagian Captain	none	100
1696	Merman Priest	H1	10
1415	Pelagian Mermage	W1; random: 100% x1 mask 9984 link 1	10
2395	Pearl Clan Priest	H2	50
2396	Pearl Mage	W2 S1 N1; random: 100% x1 mask 11008 link 1	10
1294	Turtle Chief	none	75
2811	Pelagian Shore Commander	none	75
2813	Pelagian Explorer	W1; random: 100% x1 mask 11520 link 1	10
2397	Pearl King	W4 S1 N1 H3; random: 100% x1 mask 10496 link 1; 10% x1 mask 11008 link 1	150
2805	Ichtyid Pearl Mage	W1 S1	10

Early Age Pelagia troop roster

ID	Unit	HP	Protection	Morale	Traits
2388	Merman Net Thrower	10	1	10	amphibious
1291	Turtle Warrior	10	1	11	amphibious
2382	Turtle Tribe Triton	10	0	11	aquatic
2383	Shark Tribe Triton	10	0	11	aquatic
2384	Pelagian Militia	12	1	9	aquatic
1056	Pelagian Militia	12	1	9	aquatic
2385	Pelagian Soldier	15	1	11	aquatic
2386	Coral Clan Soldier	16	1	12	aquatic
2391	Triton Rider	15	1	13	aquatic
1292	Turtle Warrior	10	1	11	poor amphibian
2807	Pelagian Shore Fighter	10	1	10	poor amphibian
2809	Sideraspist	10	1	11	poor amphibian
2387	Pearl Guard	16	1	13	sacred, aquatic

Early Age Pelagia mage and priest portfolio

ID	Commander	Fixed and random magic	Leadership
1696	Merman Priest	H1	10
1415	Pelagian Mermage	W1; random: 100% x1 mask 9984 link 1	10
2395	Pearl Clan Priest	H2	50
2396	Pearl Mage	W2 S1 N1; random: 100% x1 mask 11008 link 1	10

ID	Commander	Fixed and random magic	Leadership
2813	Pelagian Explorer	W1; random: 100% x1 mask 11520 link 1	10
2397	Pearl King	W4 S1 N1 H3; random: 100% x1 mask 10496 link 1; 10% x1 mask 11008 link 1	150
2805	Ichtyid Pearl Mage	W1 S1	10

The highest fixed recruitable paths resolved in these rows are Water 4, Astral 1, Nature 1, Holy 3. Random masks are printed as raw pinned fields because mask interpretation, linked-roll behaviour, and live display should not be guessed. A rare result is an opportunity after recruitment, never a guaranteed research or ritual schedule.

Early Age Pelagia capital and national sites

ID	Site	Monthly fields	Recruits recorded
72	Palace of Pearls	W4, N2	Pearl King, Ichtyid Pearl Mage, Pearl Guard

Site rows prove only their explicit fields. Hidden effects, event behaviour, recruitment timing, ownership transitions, and live interface grouping remain unresolved.

Early Age Pelagia national spell map

No active nation-restricted spell row was found for this nation in the pinned snapshot. Absence here is a metadata boundary, not proof that no shared or special spell exists.

Research does not create the caster, gems, slaves, corpses, laboratory, target, or free mage-turn. Every national spell remains a gated project: research, access, treasury, legal target, and opportunity cost must all be present.

Early Age Pelagia national item boundary

ID	Item	Construction	Paths	Link
18	Coral Blade	3	W1	rebate
329	Clam of Pearls	3	W1 N1	rebate

Restriction and rebate fields establish metadata links, not displayed prices, rounding, stacking, or live forge availability. Those remain open unless the official manual supplies the exact result.

Early Age Pelagia hero boundary

ID	Hero record	Magic	Boundary
2806	Wondrous	A3 W4 S3 N1 H3	assignment only; timing unresolved

Heroes are contingent capacity. None belongs in an opening, research, or path plan that must work every game.

Early Age Pelagia army identities

- Sacred roster: Pearl Guard.
- Flying roster: no flying troop identified in the reconciled recruit rows.
- Aquatic or amphibious roster: Merman Net Thrower, Turtle Warrior, Turtle Tribe Triton, Shark Tribe Triton, Pelagian Militia, Pelagian Militia, Pelagian Soldier, Coral Clan Soldier, Triton Rider, Turtle Warrior, Pelagian Shore Fighter, Sideraspist, Pearl Guard.
- Core identity: aquatic Triton clans, amphibious mermen, sacred Pearl Kings, and Water-Astral-Nature magic.

These labels help assemble testable packages; they do not establish the best formation, script, bless, target, or casualty rate.

Early Age Pelagia opening and expansion controls

- 1 Identify whether gold, resources, recruitment points, commander points, corpses, population, slaves, or a special national mechanism limits the first queue.
- 2 Separate ordinary, regional, coastal, and site-linked recruitment before planning reinforcement.
- 3 Use mundane leadership where it preserves a valuable mage-turn.
- 4 Label random mages immediately and keep rare paths out of guaranteed schedules.
- 5 Add scouts and retreat routes before extending beyond reliable information.
- 6 Record expansion results rather than publishing an untested party size.

Early Age Pelagia fort and recruitment doctrine

Additional forts are valuable when they reproduce the commander or troop required by the next job. Regional and coastal recruitment must be evaluated where it exists rather than averaged into a fictional universal roster. Capital or site-linked units need a replacement ledger because their opportunity cost competes with every other capital-limited purchase.

For Pelagia, the most likely planning failure is deep-water geography, limited land projection, commander coverage, and separating aquatic from amphibious replacement. The remedy is a visible queue showing location, bottleneck, expected role, and replacement time.

Early Age Pelagia research response tree

- Fixed-path branch: begin with spells the repeatable mage roster can cast without a random, booster, hero, or Pretender.
- Random-path branch: open only after the qualifying mage is recruited and labelled.
- National-spell branch: verify the exact research level, caster, cost, target, and free mage-turn from the spell table.
- Construction branch: compare each forge turn against research, searching, ritual work, and army support; item metadata alone does not prove a discount.
- Summon or reanimation branch: account for gems, corpses, slaves, laboratory access, leadership, and unresolved arrival behaviour.

Early Age Pelagia magic-access ladder

The fixed-path ceiling is Water 4, Astral 1, Nature 1, Holy 3. Access above that line needs a named bridge: booster, empowerment, communion or chorus where legal, summoned mage, hero, Pretender, or another directly verified source. Two partial paths on different commanders cannot be combined to cast one spell.

Early Age Pelagia battlefield packages

Line and support package

Use the most replaceable suitable troops as frontage, place commanders according to actual leadership, and protect mages whose turns are needed for research or rituals. Armour, morale, fatigue, size, formation width, and the opponent decide whether the line survives.

Elite or sacred package

Use sacred or elite troops only when their recruitment location, bless, priest coverage, and replacement rate justify the commitment. Capital scarcity is a strategic cost even when the unit performs well.

Mobility or habitat package

Flying, stealthy, sailing, aquatic, amphibious, cave, forest, or wasteland tools must be checked against legal movement, supply, retreat, and reinforcement. A trait is not permission to ignore geography.

Mage package

Script from paths actually present on the recruited commanders. Keep gem use, fatigue, friendly fire, magic resistance, battlefield size, and enemy resistances visible; no generic script is treated as verified performance.

Early Age Pelagia Pretender families

Family	What it can solve	What it cannot conceal
Missing-path bridge	Opens a named booster, ritual, or battlefield threshold	Research, gems, laboratories, and mage-turns remain required
Economy and infrastructure	Funds forts, laboratories, temples, commanders, and replacements	Gold does not create local resources, gems, corpses, slaves, or commander points
Sacred support	Improves a verified sacred package	Recruitment limits, priest coverage, and counters remain
Awake expansion body	Reduces pressure on the starting roster	Performance depends on settings, map, chassis, scales, script, and opponents
Resistance package	Covers a documented roster weakness	One resistance is not universal defence

Early Age Pelagia matchup and failure matrix

Enemy problem	First answer to examine	Avoid
Massed light units	Replaceable width, area effects, morale pressure, and reserves	Spending every scarce elite turn on basic frontage
Heavy armour	Higher damage, armour-piercing or negating magic, fatigue, and buffs	Assuming ordinary weapons solve protection unaided
Accurate missiles	Screens, protection, spacing, speed, and disruption	Exposing commanders or fragile elites without guards
Elemental resistance	Shift damage type and use physical or fatigue pressure	Building the complete research plan around one element
Fast raiders or flyers	Scouts, local leadership, layered defence, and mobile reserves	Concentrating every commander in one army
Large targets	Concentrated attacks, debuffs, control, and size-aware counters	Treating trampling or low-damage swarms as universal
Underwater or land transition	Verified amphibious access, coastal staging, summons, or allies	Assuming a habitat transition works because a related unit can cross

Early Age Pelagia monthly audit

- Which recruitment layer supplies each current army and mage role?
- What is the active bottleneck at every fort?
- Are random mages labelled and excluded from guaranteed schedules until present?
- Does each research target have a legal caster and treasury?
- Are capital, coastal, regional, freespawn, and ordinary replacements tracked separately?
- Are scouts, laboratories, temples, leadership, supply, and retreat routes keeping pace?
- Are heroes excluded from plans that must work every game?
- Have uncertain mechanics remained marked as uncertain?

Early Age Pelagia unresolved evidence boundary

The dossier does not claim exact expansion counts, formation performance, script outcomes, random-path display, freespawn or reanimation composition, special-dominion timing, transformation or mount resolution, summon arrival state, item-price stacking, hero timing, stealth detection, sailing routes, underwater transition, event outcomes, or battlefield casualty ranges. Nation-specific mechanics implied by names or summaries remain qualitative unless an explicit source field settles them. R-047, R-058, and every comparable engine-dependent investigation remain parked.

Early Age Pelagia source note

- Dominions 6 Manual, revision 2: nation summary, visible roster, recruitment markings, national rules, and spell descriptions.
- Official Dominions patch history through 6.37: current executable chronology; generic 6.37 statistic fixes are not assigned to unnamed objects.
- Dominions 6 Data Inspector commit `cfac4311bc0b58053b8dead7bfffbc036ba9bd5dc`: nation ID, membership rows, unit fields, random masks, sites, spell restrictions, item links, and hero assignments.
- Strategy sections are bounded doctrine derived from verified capacity. They are not runtime test results.

Dossier source register

Official

- Dominions 6 Manual, revision 2: all 37 unmodded Middle Age nation pages; national spells and rituals; research; communions, Chorus, and Grand Communion; Blood and crossbreeding; Inquisition; mounts; sailing; flying; forging; habitat transitions; and fort construction.
- Illwinter official patch history through 6.37, including the current Send Aatxe restriction, communion corrections, the 6.13 Forest of Avalon Magic correction, the 6.01 Abysia wall-defender note, Eriu's 6.01 terrain-recruit and Bean Sidhe corrections, Agartha's 6.04 Oracle-shape note, and 6.37's bounded research, drowning, and Drake corrections. Generic statistic fixes are not assigned to unnamed nation objects.

Structured snapshot

- Dominions 6 Data Inspector, commit cfac4311bc0b58053b8dead7bfffbc036ba9bd5dc, pinned to the 6.35 data update; used for mage random masks, recruitment records, capital sites, national spell restrictions, national item fields, and current object cross-checks.

Interpretation boundary

Roster entries, path masks, costs, site income, item restrictions, and national ritual requirements are source facts. Openings, research trees, Pretender families, battlefield packages, and matchup advice are strategy. Expansion counts, random-result timing, Blood returns, crossbreeding outputs, displayed forge-cost stacking, communion and Grand Communion outcomes, hydra-field behaviour, Spell Singer outcomes, Glamour detection, special-dominion scaling and targeting, ancestor-summon behaviour, conscription output, variable summon quantities, retinue and shape behaviour, flying and storm resolution, ice-equipment scaling, Guardian Spirit behaviour, remote ritual outcomes, spell targeting, and combat outcomes remain observation questions until a versioned raw set is published.
