Early Age Vanheim: Age of Vanir

Early Age Vanheim one-page command brief

Early Age Vanheim converts glamour-protected Vanir, sacred cavalry, sailing, blood priests, and Air-Earth dwarven smiths into expansion, research, and strategic pressure. The pinned roster resolves 5 commander identities and 7 troop identities across ordinary, regional, coastal, and site-linked recruitment, plus 3 active nation-restricted spell records. Its chief planning risks are elite scarcity, glamour counters, blood-hunting costs, sailing boundaries, and ordinary frontage.

The safe operating plan is to keep recruitment geography visible, buy commanders for named jobs, label every random mage, connect research to casters already owned, and preserve a replacement route before committing elite or capital-limited troops. Exact expansion parties, scripts, formations, spell targets, freespawn composition, transformation results, and combat outcomes remain open unless a source below states them directly.

Early Age Vanheim evidence and ruleset

This dossier covers unmodded Early Age Vanheim on the Dominions 6.37 executable baseline. Player-facing rules are governed by the revision-2 official manual and official patches through 9 September 2026. Nation ID 30, roster memberships, unit fields, random masks, sites, spell restrictions, item links, and hero assignments are cross-checked against the pinned Inspector 6.35 commit `cfac4311bc0b58053b8dead7bffb036ba9bd5dc`.

The structured snapshot is not relabelled as live 6.37 data. The 6.37 patch's unspecified statistic corrections are not assigned to any Vanheim object without a named official record. No runtime test, replay, save, or new test asset was used.

Early Age Vanheim conversion chain

verified recruitment and national assets

-> provinces, forts, laboratories, temples, scouts, and replacement routes

-> labelled fixed and random path access

-> research, searching, forging, rituals, and battlefield support

-> surviving armies, sieges, claims, raids, and strategic depth

Early Age Vanheim recruitment geography

Recruitment layer	Commanders	Troops	Evidence boundary
Ordinary forts	3	5	Direct pinned membership rows
Regional or coastal	0	0	Non-fort and coast membership rows; exact terrain availability remains source-dependent
Site-linked	2	2	Explicit site recruit fields; capital grouping follows the nation-site association

Empty ordinary rows do not prove that a nation lacks forces. Freespawn, reanimation, events, summoning, dominion effects, and special recruitment remain separate mechanisms.

Early Age Vanheim commander roster

ID	Commander	Fixed and random magic	Leadership
1512	Van Scout	none	0
263	Vanherse	A1 G1 H1	75
264	Vanjarl	A2 G1 B1 H2	100
948	Vanadrott	A2 G2 B1 H2; random: 100% x1 mask 54528 link 1; 10% x1 mask 54528 link 1	150
323	Dwarven Smith	E2; random: 100% x1 mask 21888 link 1; 10% x1 mask 21888 link 1	10

Early Age Vanheim troop roster

ID	Unit	HP	Protection	Morale	Traits
1679	Serf Warrior	10	0	8	ordinary body
1508	Huskarl	13	0	11	stealthy
1509	Huskarl	13	0	11	stealthy
1510	Hirdman	13	0	12	stealthy
1504	Mounted Hirdman	13	0	12	stealthy
1513	Vanhere	15	0	15	sacred, stealthy
463	Fay Boar	18	4	18	ordinary body

Early Age Vanheim mage and priest portfolio

ID	Commander	Fixed and random magic	Leadership
263	Vanherse	A1 G1 H1	75
264	Vanjarl	A2 G1 B1 H2	100
948	Vanadrott	A2 G2 B1 H2; random: 100% x1 mask 54528 link 1; 10% x1 mask 54528 link 1	150
323	Dwarven Smith	E2; random: 100% x1 mask 21888 link 1; 10% x1 mask 21888 link 1	10

The highest fixed recruitable paths resolved in these rows are Air 2, Earth 2, Glamour 2, Blood 1, Holy 2. Random masks are printed as raw pinned fields because mask interpretation, linked-roll behaviour, and live display should not be guessed. A rare result is an opportunity after recruitment, never a guaranteed research or ritual schedule.

Early Age Vanheim capital and national sites

ID	Site	Monthly fields	Recruits recorded
114	Vanhalla	A2, G1	Vanadrott, Vanhere
115	The Halls of Andvare	E3	Dwarven Smith, Fay Boar

Site rows prove only their explicit fields. Hidden effects, event behaviour, recruitment timing, ownership transitions, and live interface grouping remain unresolved.

Early Age Vanheim national spell map

ID	Spell	School	Requirement	Cost field
491	Summon Dwarf of the Four Directions	Conjuration 8	A4 E3	62
492	Summon Valkyries	Conjuration 6	A3 D1	1
493	Awaken Draugar	Conjuration 4	D2	12

Research does not create the caster, gems, slaves, corpses, laboratory, target, or free mage-turn. Every national spell remains a gated project: research, access, treasury, legal target, and opportunity cost must all be present.

Early Age Vanheim national item boundary

ID	Item	Construction	Paths	Link
29	Dwarven Hammer	3	E3	rebate
236	Lightweight Scale Mail	3	A1	rebate
262	Weightless Scale Mail	7	A1	rebate
280	Pebble Skin Suit	9	B4 E1	rebate
361	Cauldron of the Elven Halls	5	G3	rebate
435	Draupnir	9	E5	rebate

Restriction and rebate fields establish metadata links, not displayed prices, rounding, stacking, or live forge availability. Those remain open unless the official manual supplies the exact result.

Early Age Vanheim hero boundary

ID	Hero record	Magic	Boundary
590	Vanadrott	A3 D2 G2 B2 H2	assignment only; timing unresolved
1511	Vanadis	F2 A2 G2 H1	assignment only; timing unresolved

Heroes are contingent capacity. None belongs in an opening, research, or path plan that must work every game.

Early Age Vanheim army identities

- Sacred roster: Vanhere.
- Flying roster: no flying troop identified in the reconciled recruit rows.
- Aquatic or amphibious roster: no aquatic or amphibious troop identified in the reconciled recruit rows.
- Core identity: glamour-protected Vanir, sacred cavalry, sailing, blood priests, and Air-Earth dwarven smiths.

These labels help assemble testable packages; they do not establish the best formation, script, bless, target, or casualty rate.

Early Age Vanheim opening and expansion controls

- 1 Identify whether gold, resources, recruitment points, commander points, corpses, population, slaves, or a special national mechanism limits the first queue.
- 2 Separate ordinary, regional, coastal, and site-linked recruitment before planning reinforcement.
- 3 Use mundane leadership where it preserves a valuable mage-turn.
- 4 Label random mages immediately and keep rare paths out of guaranteed schedules.
- 5 Add scouts and retreat routes before extending beyond reliable information.
- 6 Record expansion results rather than publishing an untested party size.

Early Age Vanheim fort and recruitment doctrine

Additional forts are valuable when they reproduce the commander or troop required by the next job. Regional and coastal recruitment must be evaluated where it exists rather than averaged into a fictional universal roster. Capital or site-linked units need a replacement ledger because their opportunity cost competes with every other capital-limited purchase.

For Vanheim, the most likely planning failure is elite scarcity, glamour counters, blood-hunting costs, sailing boundaries, and ordinary frontage. The remedy is a visible queue showing location, bottleneck, expected role, and replacement time.

Early Age Vanheim research response tree

- Fixed-path branch: begin with spells the repeatable mage roster can cast without a random, booster, hero, or Pretender.
- Random-path branch: open only after the qualifying mage is recruited and labelled.
- National-spell branch: verify the exact research level, caster, cost, target, and free mage-turn from the spell table.
- Construction branch: compare each forge turn against research, searching, ritual work, and army support; item metadata alone does not prove a discount.
- Summon or reanimation branch: account for gems, corpses, slaves, laboratory access, leadership, and unresolved arrival behaviour.

Early Age Vanheim magic-access ladder

The fixed-path ceiling is Air 2, Earth 2, Glamour 2, Blood 1, Holy 2. Access above that line needs a named bridge: booster, empowerment, communion or chorus where legal, summoned mage, hero, Pretender, or another directly verified source. Two partial paths on different commanders cannot be combined to cast one spell.

Early Age Vanheim battlefield packages

Line and support package

Use the most replaceable suitable troops as frontage, place commanders according to actual leadership, and protect mages whose turns are needed for research or rituals. Armour, morale, fatigue, size, formation width, and the opponent decide whether the line survives.

Elite or sacred package

Use sacred or elite troops only when their recruitment location, bless, priest coverage, and replacement rate justify the commitment. Capital scarcity is a strategic cost even when the unit performs well.

Mobility or habitat package

Flying, stealthy, sailing, aquatic, amphibious, cave, forest, or wasteland tools must be checked against legal movement, supply, retreat, and reinforcement. A trait is not permission to ignore geography.

Mage package

Script from paths actually present on the recruited commanders. Keep gem use, fatigue, friendly fire, magic resistance, battlefield size, and enemy resistances visible; no generic script is treated as verified performance.

Early Age Vanheim Pretender families

Family	What it can solve	What it cannot conceal
Missing-path bridge	Opens a named booster, ritual, or battlefield threshold	Research, gems, laboratories, and mage-turns remain required
Economy and infrastructure	Funds forts, laboratories, temples, commanders, and replacements	Gold does not create local resources, gems, corpses, slaves, or commander points
Sacred support	Improves a verified sacred package	Recruitment limits, priest coverage, and counters remain
Awake expansion body	Reduces pressure on the starting roster	Performance depends on settings, map, chassis, scales, script, and opponents
Resistance package	Covers a documented roster weakness	One resistance is not universal defence

Early Age Vanheim matchup and failure matrix

Enemy problem	First answer to examine	Avoid
Massed light units	Replaceable width, area effects, morale pressure, and reserves	Spending every scarce elite turn on basic frontage
Heavy armour	Higher damage, armour-piercing or negating magic, fatigue, and buffs	Assuming ordinary weapons solve protection unaided
Accurate missiles	Screens, protection, spacing, speed, and disruption	Exposing commanders or fragile elites without guards
Elemental resistance	Shift damage type and use physical or fatigue pressure	Building the complete research plan around one element
Fast raiders or flyers	Scouts, local leadership, layered defence, and mobile reserves	Concentrating every commander in one army

Enemy problem	First answer to examine	Avoid
Large targets	Concentrated attacks, debuffs, control, and size-aware counters	Treating trampling or low-damage swarms as universal
Underwater or land transition	Verified amphibious access, coastal staging, summons, or allies	Assuming a habitat transition works because a related unit can cross

Early Age Vanheim monthly audit

- Which recruitment layer supplies each current army and mage role?
- What is the active bottleneck at every fort?
- Are random mages labelled and excluded from guaranteed schedules until present?
- Does each research target have a legal caster and treasury?
- Are capital, coastal, regional, freespawn, and ordinary replacements tracked separately?
- Are scouts, laboratories, temples, leadership, supply, and retreat routes keeping pace?
- Are heroes excluded from plans that must work every game?
- Have uncertain mechanics remained marked as uncertain?

Early Age Vanheim unresolved evidence boundary

The dossier does not claim exact expansion counts, formation performance, script outcomes, random-path display, freespawn or reanimation composition, special-dominion timing, transformation or mount resolution, summon arrival state, item-price stacking, hero timing, stealth detection, sailing routes, underwater transition, event outcomes, or battlefield casualty ranges. Nation-specific mechanics implied by names or summaries remain qualitative unless an explicit source field settles them. R-047, R-058, and every comparable engine-dependent investigation remain parked.

Early Age Vanheim source note

- Dominions 6 Manual, revision 2: nation summary, visible roster, recruitment markings, national rules, and spell descriptions.
- Official Dominions patch history through 6.37: current executable chronology; generic 6.37 statistic fixes are not assigned to unnamed objects.
- Dominions 6 Data Inspector commit cfac4311bc0b58053b8dead7bffbcb036ba9bd5dc: nation ID, membership rows, unit fields, random masks, sites, spell restrictions, item links, and hero assignments.
- Strategy sections are bounded doctrine derived from verified capacity. They are not runtime test results.

Dossier source register

Official

- Dominions 6 Manual, revision 2: MA Vanheim nation page, national spells and rituals, sailing, mounts, Blood sacrifice, forging, and fort construction.
- Illwinter official patch history through 6.36. The retained 6.13 Vanheim and Helheim presentation record is not converted into an unnamed mechanical change.

Structured snapshot

- Dominions 6 Data Inspector, commit cfac4311bc0b58053b8dead7bffc036ba9bd5dc, pinned to the 6.35 data update; used for nation identity, ordinary-fort recruitment, random masks, capital sites, spell restrictions, item rebates, and hero records.

Interpretation boundary

Roster entries, printed costs, paths, site income, spell and ritual requirements, and pinned metadata are source facts. Openings, recruitment packages, research branches, force packages, Pretender families, and matchup responses are strategy. Random display, sailing and trace-income resolution, glamour and stealth outcomes, transformations, mounted behaviour, summons, item-rebate prices, Blood outcomes, hero timing, and combat results remain unresolved.
